

# Sliding door

## Ranges : Goodwood Plus

The sleek design of Goodwood Plus sliding door cabinets make them the perfect choice for impressive storage when space is at a premium. Doors have a soft-close damper system for smooth, quiet operation and closure while the seamless front frame ensures unrivalled strength and stability. There is a central partition so that each half can house various internal fittings and doors can be individually locking. Cabinets are designed to accept glass tops, MFC tops, or a factory fitted slim metal top - further customisation is available with perforated & acoustic doors (pictured) and a range of accessories, like planter tops.

Options : Perforated doors with or without acoustic foam inserts / Metal, glass or MFC tops
